

# MECHANICAL SWEEPER

CHIL Tractor Towed Mechanical Sweeper is a classic road cleaning solution. With Three Brush Cleaning Mechanism made of nylon and metallic wires, the Mechanical Sweeper cleans the roads with worst crevices, inflicting no damage to road surface while providing extra tough cleaning. Aided with water sprinklers, CHIL Mechanical Sweepers make sure that there is no dust flying around, making it a comfortable machine to be used even while the road is being used by commuters. CHIL Mechanical Sweepers are consistently employed by waste managers and municipal authorities all over the country to improve the general outlook of roads. Tested and tried, CHIL Mechanical Sweepers have stood the test of time.
